Track0tic™ demo kit — scannable QRs

Print this page, or scan straight off the screen with a phone camera. Every QR is a real link into the review site, so the demo runs on any phone without an app or login.

Device QRs — pasted by Track0tic before the device ships; the tenant never prints these

TRK-0418

Device QR · Pro · pasted by Track0tic

qr-flow.html#ScanBind?trk=TRK-0418

TRK-0401

Device QR · HUB · Cold room A · pasted by Track0tic

qr-flow.html#HubBind?trk=TRK-0401

Passport QRs — generated by Track0tic as batch PB-2026-0912, printed by the tenant, one per moving item

PP-AD-011234

Passport QR · Apollo Pharmacy, Saket · delivered

qr-flow.html#PublicScan?pp=PP-AD-011234

PP-AD-011235

Passport QR · Apollo Pharmacy, Saket · delivered

qr-flow.html#PublicScan?pp=PP-AD-011235

PP-AD-011236

Passport QR · Gupta Medicos, Lajpat Nagar · on the way

qr-flow.html#PublicScan?pp=PP-AD-011236

PP-AD-011237

Passport QR · Gupta Medicos, Lajpat Nagar · on the way

qr-flow.html#PublicScan?pp=PP-AD-011237

PP-AD-011238

Passport QR · Gupta Medicos, Lajpat Nagar · on the way

qr-flow.html#PublicScan?pp=PP-AD-011238

Demo script · 2 minutes

1. **Scan TRK-0418** (device QR) → Operator scan page. Show the Passport QR list and tap *Bind 24 Passport QRs*.
2. Bound · leg starts. Tap *Delivered · scan at the stop* → stop 1 of 2 at Apollo Pharmacy: only 011234 and 011235 are handed over, the other three continue.
3. **Scan PP-AD-011234** (Passport QR) → what the patient / pharmacist sees: no login, English / हिन्दी, whole chain anonymised, verification token. Tap *Open the PDF report*.
4. **Scan PP-AD-011236** → same record for an item still on the way (last step "in progress", generation time shown).
5. **Scan TRK-0401** (HUB device QR) → the same scan page used for storage: *Bind 120 to Cold room A · storage starts*.
6. Open the portal Dashboard on a laptop: the same device and items appear live — excursion on TRK-0418, journey by device, Passport QR stock.

Wireframe links only: the real product resolves a device QR to `trackotic.com/d/<token>` and a Passport QR to `trackotic.com/p/<token>`; the id is never in the QR.
